

We are pleased to offer a comprehensive training on laser treatment in proctology at a new educational center in “Clinic Piramīda”. The core values of the clinic are to maintain and improve the health of the patients and their families.

The clinic's highly qualified doctors and specialists offer and perform many forms of diagnostics and medical treatments.

The “Clinic Piramīda” specializes in a wide range of medical services, such as - neurology, proctology, endocrinology, gynecology , orthopedics, dermatology, cardiology, psychology . As well as physiotherapy and sport medicine.

Last year, the clinic provided diagnostics and medical treatment to more than 22 500 patients and more than 1000 surgeries were performed.

**NEW**

Training Center for  
Proctology Laser  
treatment in Riga, Latvia

Training would be led by Dr Baiba Putnina who has an extensive experience in many different proctology laser treatments with 1470nm, 980nm, 635nm wave length lasers.

- Hemorrhoidal disease grade I, II, III and IV - over 550 surgeries in total;
- Anal fistula - 64 surgeries;
- Anal stricture, scars - 13 surgeries;
- Pilonidal sinus - 15 surgeries;
- Benign peri anal lesions - 60 surgeries;
- Chronic anal fissure - 170 surgeries;
- Anal polyps - 135 surgeries;
- "Skin tag" - 410 surgeries;
- Perianal dermatitis - over 300 surgeries;

Additionally, Dr Putnina has performed approximately **1500 other proctological operations:**

STARRI, PRP, VIVOSTAT, Treatments for Fecal Incontinence - tissue-bulking injections, Karydakis procedure, LONGO, HAL-RAR, lateral myotomy, conventional – hemorrhoidectomy, anal fistula, benign peri anal lesions, chronic anal fissure, anal polyps and "Skin tag" removal.

Clinic "Piramīda" and Dr. Putnina offer to participants a full day training course. 3-5 different laser proctology cases will be performed. Dr. Putnina will discuss the indication, perform the surgeries, and explain the techniques step by step.

The procedures will be performed with the versatile Lasotronix SMART Laser. It provides a large range of preset treatment protocols and three different wavelengths for the most effective therapy, including biomodulation.

We are looking forward to welcoming you at the Laser Proctology Education Center in Riga!
